Notes

- *Students are encouraged to begin in summer, which will set them up to complete the certificate in the spring. They can, however, enter at any point in the year.
- Students with certificates in Water/ Wastewater Management are prepared to acquire professional licenses as required for employment in the field, and perform the duties of water and wastewater operators. Career opportunities are numerous, in both private and public agency settings, as most all communities have water and wastewater facilities that require individuals with specialized training to oversee their operations and management.

Zero Textbook Costs (ZTC):

The Zero Textbook Costs designation and logo are added to any course that provides free access to all required instructional materials. These are typically shared with students through Canvas. Courses that are designated as ZTC may still require students to purchase supplemental materials such as lab coats, a calculator, art supplies,

COURSE	UNITS	PRE-REQS^	SEMESTERS OFFERED*
ENVT 382 Water and Wastewater System Regulations and Management	3		Spring

etc. See full definitions and searching tips on the Zero Textbook Costs page of the college website.
